

LucinoZERO Cleaning & Maintenance

Keeping your Lucino surface clean is the first step to ensuring excellent performance for years to come.

Cleaning & Maintenance Instructions

Daily Cleaning

Wipe with a damp cloth and mild detergent. For degreasing, use non-abrasive cleaners (e.g. Spray & Wipe), followed by a clean damp cloth.

Stain Removal

For stains from food colouring, fruit juices, coffee, soft drinks, wine, paints, or permanent markers, promptly clean the area using an appropriate multipurpose cleaner and rinse well with water. Lucino has supplied you with a complimentary cleaner for this purpose.

Spill Management

Clean spills promptly to avoid staining.

Residue Removal

Scrape dried substances such as food, chewing gum, nail polish, or paint with a plastic scraper, then clean with a scratch-free scouring pad and rinse with water.

Further Warranty Exclusions

This warranty does not extend to the following circumstances:

- Damage from standing on or applying excessive force to benchtops, particularly around vulnerable areas such as sinks, cooktops, and unsupported overhangs (e.g. breakfast bars, dishwasher recesses).
- Minor blemishes such as blotches or spots, which are inherent to the manufacturing processes of engineered stone and natural granite.
- Damage caused by other trades (e.g. plumbers, builders) after installation by Lucino Benchtops.
- Failure or damage caused by insufficient, unlevel, or structurally inadequate cabinetry, or where maximum overhang specifications have been exceeded.
